To Mayor John Woodbury and Southgate Council;

Hoping this letter finds everyone and their families, happy and healthy and enjoying the weather.

The Dundalk Agricultural Society has come up with, what we think is a unique solution to the covid problem regarding our fair. We know we can not have the fall fair in the traditional sense of the word. In these ever changing times we have racked our brains for something we could do for the community. We are proposing a drive thru fair. We would set up stations for people to look at round the track. So far we have thought about having the junior calf club with their small calves. Showing off some tractors and vintage vehicles. And an equipment display. With the council's co-operation we would have people come in the fair grounds drive way, follow the course and then exit the arena drive way. We feel that would help create a good flow of traffic to maintain the safe distance rules.

Thank you for your time, we look forward to hearing from you.
