MOE File: SI GR SO C15 610

Further to my letter to you dated June 26, 2020, containing groundwater comments for the Proton Landfill 2018/2019 Monitoring Report, our regional surface water specialist has reviewed the surface water aspects of the monitoring report and agrees with the conclusion on page 18 of the report that there is no evidence of impacts to the tributary downstream of the site.

If you have any questions concerning this letter, please contact the undersigned at (519) 374-1388.

Yours truly,
