**RE: Consent Application B10/20  
026735 Highway 89  
Township of Southgate  
Applicant/Owner: AG Holdings Inc.**

Dear Ms. Green,

This correspondence is in response to the above noted application. We have had an opportunity to review the application in relation to the Provincial Policy Statement (PPS) and the County of Grey Official Plan (OP). We offer the following comments.

The purpose is to sever 1.3 ha of agricultural land from the existing 4.2 ha lot and merge it with the adjacent agricultural lot being Pt lot 40 Con 1 proton. The retained parcel will be 2.9 ha and have 89.7m of frontage on Highway 89. No new developable lots would be created as a result of this lot addition.

Schedule A of Recolour Grey designates the subject property as a 'Rural'. Section 5.4.3 states,

3) Consents are permitted for lot addition purposes, or to correct lot boundaries, where the land being added is to be added to an existing use provided the enlarged lot and retained lots are greater than 0.4 hectares each. The above-noted lot density provisions in Table 9 do not apply to lot additions.

County planning staff have no concerns with the proposed development. Further comments should be received from the Township of Southgate.

Schedule A also indicates that there are 'Hazard Lands' on the subject property. Section 7.2 states,

2) Permitted uses in the *Hazard Lands land use type* are forestry and uses connected with the conservation of water, soil, wildlife and other natural

resources. Other uses also permitted are agriculture, passive public parks, public *utilities* and *resource based recreational uses*. The aforementioned uses will only be permitted where site conditions are suitable and where the relevant hazard impacts have been reviewed.

Appendix B indicates that the subject property contains 'Significant Woodlands'. Section 7.4 of Recolour Grey states,

1) No *development* or *site alteration* may occur within *Significant Woodlands* or their *adjacent lands* unless it has been demonstrated through an *environmental impact study*, as per Section 7.11 of this Plan, that there will be no *negative impacts* on the natural features or their *ecological functions*.

Further, Appendix B also indicates that the subject property contains a stream. Section 7.9 states,

2) No development will be permitted within 30 metres of the banks of a stream, river, or lake unless an environmental impact study prepared in accordance with Section 7.11 of this Plan concludes setbacks may be reduced and/or where it has been determined by the appropriate conservation authority these setbacks may be reduced. Landowners are encouraged to forest the areas within 30 metres of any stream to maintain and improve fish habitat, ecological function of the stream, and to increase natural connections.

County planning staff recommend receiving comments from the Conservation Authority regarding the Hazard Lands, Significant Woodlands and the stream. Should the applicant seek to injure or destruct trees on lands that extend more than 15 metres from the outer edge of which a Building Permit has been issued, staff recommend consulting the County's Forestry Management By-law - <https://www.grey.ca/forests-trails>. An exemption to the by-law includes the injuring or destruction of trees required in order to install and provide utilities to the construction or use of the building, structure or thing in respect of which a Building Permit has been issued.

Provided that positive comments are received from the Conservation Authority regarding the Hazard Lands, Significant Woodlands, and the stream, County planning staff have no further concerns with the subject application.

The County requests notice of any decision rendered with respect to this application.

If you wish to discuss this matter further, please do not hesitate to contact me.

Yours truly,
