Dear Mayor & Member of Council,

Thank you for your significant support to the *Together in Care* Campaign for the new Markdale Hospital. Your generosity will support superior health care for the entire community now and for future generations.

Just as important, the early investment by key leaders like yourself sends a critical message to the entire community that there is strong support for this project. Further, gifts such as yours provide the lead momentum that is so crucial to this Campaign, and your participation is both encouraging and energizing for campaign staff and volunteers alike.

Furthermore, we must thank you for your additional pledge of \$60,000 to be received over the next 2 years.

Such enthusiasm and early support for this project will go a long way towards the success of establishing the new hospital that we have needed for so long.

We are very grateful for your gift. Your investment in health care will have a profound effect on this community. Let me thank you again for taking a lead role as one of the people on the front edge of this Campaign and this project.

With Gratitude

Harvey Fraser, Campaign Chair

P.S. I regularly visit the construction site to check on the progress. It is really something to see the new hospital finally becoming a reality. Thank you for begin part of what we are doing together.
