**Re: Zoning Amendment Application**  
**For Residence at Roslyn Centre Located At 105261 Southgate Road 10 (21-167)**  
**Further Submission Requirements – Letter and Drawings**

Dear Clinton,

As a response to the email dated July 11, 2022 requesting further information for the application process, we are pleased to submit this letter and the site plan drawing for the Planning Department review.

We are writing on behalf of our client, Howard Dalal, pertaining to the proposed renovation of the existing camp dining hall building located at the property noted above. The proposed renovation involves the conversion of three separate buildings into one to become a permanent group home accommodating eight developmentally disabled individuals. There is one staff on site as well. This group home is being run by the owner whose personal residence is also on the same property. The property will furthermore continue as a camp for 30 campers on a seasonal basis.

The following current services will be maintained and augmented as required: electrical, septic, water, propane. A mechanical and electrical engineer are working with us to determine specific requirements and will have drawings as part of the building permit set. There is a current well on the property that serves the existing building being renovated and will continue to do so post renovation. There is a current septic system designed for 48 campers. The owner is willing to reduce the number of campers to accommodate the group home use and remain within the existing system capacity. Our calculations indicate a reduction to 30 campers with the group home in place. There will be a need for fire protection of the renovated building in which case we will be designing a fire route to a draft port which will draw water from the pond as we have done on several other projects similar to this.

Please refer to the attached site plan for further information. Feel free to contact me directly if you wish to discuss this project or have questions.

Sincerely,

Wesley Gowing, Architect
