Attachments: 2016_11_04_EGRE_GI_Runyon.pdf

Good morning Ted Runyon,

This email is further to the emails of below regarding the property known municipally as:
263574 Southgate Road 26, Township of Southgate.

Please be advised that SVCA comments and site plan dated November 4, 2016 (attached for reference) are still applicable for the property. A SVCA permit will not be required for the proposal.

SVCA encourage you to maintain erosion/sediment control around the south side of the excavated area to ensure excavated material does not flow into the Wilder Lake.

As per SVCA practice I am copying on this email, the building department staff for the Township of Southgate, and the SVCA director representing the Township of Southgate/deputy mayor of Southgate.

Should you have further questions, please do not hesitate to contact me.

All the best with your project.

Kind regards,

Mike

Subject: RE: Ted Runyon site plans

Hi Ted,

Your payment has been received. A reviewing field staff person will be in touch with you once your file is assigned to discuss details of your proposal. Unfortunately, there is no average timeline for review, as each review is specific to the unique proposal and property. I would recommend discussing the expected timelines with your assigned staff member once they contact you. Once they have started their review, they will have a better idea of how long they expect the review to take.

Kind Regards,
